

LESSON 6 : TEACHER RESOURCE

Public Transport by the Rules - Kahoot Questions

1. Why are passengers required to stay behind the yellow line on train platforms?

- A. It looks neat
- B. To give staff space
- C. To prevent train strikes if someone falls
- D. To follow tradition

Teacher note: Standing behind the yellow line reduces the risk of being struck by a train or pulled by air pressure. This rule protects passengers' right to safety.

2. Which rule helps reduce crowding risks on public transport?

- A. Standing near doors
- B. Pushing on quickly
- C. Letting people off before boarding
- D. Blocking aisles

Teacher note: Letting people off first prevents pushing, falls, and conflict. It shows responsibility for shared safety.

3. Why is playing loud music on public transport discouraged?

- A. It's illegal
- B. It uses battery
- C. It affects comfort and safety for others
- D. Drivers don't like it

Teacher note: Loud music reduces awareness of announcements and impacts others' right to a comfortable and safe journey.

4. Which action shows respect in busy travel spaces?

- A. Walking while texting
- B. Standing still in doorways
- C. Being aware of others and adjusting your movement
- D. Racing friends

Teacher note: Situational awareness helps prevent collisions and supports shared responsibility in crowded spaces.

Public Transport by the Rules - Kahoot Questions

5. Playing music on your headphones loudly while travelling mainly reduces your ability to...

- A. Enjoy music
- B. Save battery
- C. Notice risks and warnings around you
- D. Walk faster

Teacher note: Reduced awareness increases risk, especially near platforms, crossings, and vehicle movement.

6. True or False: Protective Behaviours help you follow laws and rules even when under social pressure.

- True
- False

Teacher note: Protective behaviours support assertive, safe decisions—even when others encourage risky choices.

7. Victorian travel laws and rules exist mainly to:

- A. Restrict freedom
- B. Create consequences
- C. Protect people and shared spaces
- D. Control young people

Teacher note: Rules exist to protect community safety, not to limit independence.

8. When waiting for a train, where should passengers stand?

- A. Anywhere on the platform
- B. Behind the yellow line
- C. Right at the edge to get on quickly
- D. In front of the doors

Teacher note: Standing behind the yellow line is a legal and safety responsibility that protects everyone's right to safe access.

9. Which action shows responsibility when crossing tram tracks?

- A. Running across before the tram comes
- B. Looking both ways and crossing at designated crossings
- C. Assuming trams can stop quickly
- D. Crossing anywhere because it's safe

Teacher note: Trams cannot swerve or stop quickly. Following crossing rules protects lives.

Public Transport by the Rules - Kahoot Questions

10. On a bus, which behaviour demonstrates respect for others' rights?

- A. Taking up multiple seats
- B. Using headphones and keeping voices low
- C. Standing in the aisle blocking movement
- D. Eating loudly and leaving trash

Teacher note: Respectful behaviour supports comfort, access, and safety for all passengers.

11. If a pedestrian sees a tram approaching at a crossing, what should they do?

- A. Step quickly in front to save time
- B. Wait behind the crossing lines
- C. Wave to the driver and cross anyway
- D. Run across if no one else is around

Teacher note: Waiting protects pedestrians and respects tram right of way under Victorian law.

12. Which of the following demonstrates situational awareness while using public transport?

- A. Looking at your phone and ignoring announcements
- B. Listening for stop announcements, observing others, and moving safely
- C. Pushing through crowds
- D. Blocking aisles

Teacher note: Awareness helps people anticipate risks and respond safely in changing environments.

13. Why should passengers avoid standing near doors once onboard?

- A. It blocks airflow
- B. It delays others getting on and off safely
- C. It looks rude
- D. It's uncomfortable

Teacher note: Clear doorways reduce congestion and support safe movement, especially during peak times.

14. If a train or bus is overcrowded, what is the safest choice?

- A. Force your way on
- B. Hold doors open
- C. Wait for the next service if possible
- D. Stand outside the doors

Teacher note: Overcrowding increases injury risk. Safety sometimes means patience.
