

Stand Up, Speak Up

@SDO Studio

When you see something wrong why stay in the shade,
Use you're voice to make a change, don't be afraid,
It's time to stand up and be brave and strong,
Speak up for what's right let your voice be heard in song.

**Stand up, speak up, let your courage show,
Make a difference in the world let your actions flow,
When you see a chance to make things right,
Stand up, speak up, shine your light.**

When you hear a friend who needs a helping hand,
Or see someone who needs to understand,
Be the one who steps up and takes a stand,
With your voice and heart you help make a grand plan.

**Stand up, speak up, let your courage show,
Make a difference in the world let your actions flow,
When you see a chance to make things right,
Stand up, speak up, shine your light.**

It's not always easy but it's worth the fight,
To stand for what is just and bring wrongs to light.
With every word and deed you pave the way,
For a brighter tomorrow and a better day.

**Stand up, speak up, let your courage show,
Make a difference in the world let your actions flow,
When you see a chance to make things right,
Stand up, speak up, shine your light.**

Remember dear friend as you go along,
Your voice is powerful and your heart is strong,
Stand up, speak up and be the change you seek,
Together we'll make the world less bleak.
