

**the tram
doors are
closing as I
approach**

**someone
needs a
priority seat
more than I do**

**I'm on a train
platform**

**I'm listening
to music on
a train**

**my phone
battery is
low and I'm
running late**

**someone is
standing too
close to me
and I feel
uneasy**

**an argument
starts near
me on a bus**

**train staff
give me
instructions**

THEN

**I will wait
for the next
tram**

THEN

**I will offer it
and ask if
they need
any help**

THEN

**I will stand
behind the
yellow line**

THEN

**I will use
headphones
and keep the
volume low**

THEN

**I will switch to
low-power
mode and tell
someone my
location**

THEN

**I will move
away and tell
someone**

THEN

**I will move
away or shift
seats closer
to the driver**

THEN

**I will follow
their
directions**

Because

forcing the doors is illegal and dangerous

Because

it is respectful and a transport rule

Because

it is a travel rule that keeps me safe

Because

it is respectful of others and I can stay aware

Because

staying contactable increases my safety

Because

I have a right to feel safe and enforce boundaries

Because

making space and being near a trusted adult reduces risk

Because

they're trained to keep people safe
